

OUR FUTURE PLANS >>

OUR STRATEGY: EVERY CHILD DESERVES CHILDREN'S

As the only freestanding pediatric healthcare system in Georgia, we are the leaders in caring for kids. To carry out our vision – “Best care ... healthier kids” – for decades to come, we must respond to the growing demand for access to specialized pediatric care. Our plans for a new campus and other growth across our system will allow us to give more kids the care and expertise that is unique to Children's.

OUR NORTH DRUID HILLS CAMPUS

A new campus at the northeastern corner of North Druid Hills and I-85 will be the home of a hospital, the Center for Advanced Pediatrics and our support staff offices.
